WORK EXPERIENCE

Fullstack Developer (OJT), TVLSTC Assessment

Dec 2025 - April 2026

- Independently designed and developed a complete Learning Management System (LMS) for an educational institution, using **PHP**, **MySQL**, and **TailwindCSS** as the sole full-stack developer.
- Built core functionality including course/module management, role-based access for admins, instructors, and learners, and progress tracking and reporting.
- Implemented dynamic content access controls, ensuring course modules remain locked until administrative verification is granted.
- Leveraged AI tools to support coding and technical planning, streamlining solo development of the full system.

PROJECTS

Microfinance Logistics II - Capstone Project

<https://log2.microfinancial-1.com/>

- Led front-end direction for a 5-member team building a web-based Microfinancial Management System (**PHP**, **JavaScript**, **TailwindCSS**) for logistics, vehicle management, and cost analysis, while contributing to backend development.
- Built a real-time GPS tracking system supporting at least 5 vehicles per account, enabling live monitoring of fleet location and status.
- Integrated a Scikit-learn predictive model to flag vehicles at risk of maintenance issues early, supporting data-driven cost analysis and reducing unplanned downtime.
- Leveraged AI tools for project planning and coding support, accelerating development and ensuring the project's successful delivery.

Plantitos – Technopreneurship Project

- Led front-end direct Led a 5-person team as full-stack developer, building a plant management system (**PHP** **TailwindCSS**) for hobbyist and home gardeners.
- Developed garden tracking and a symptom-based plant disease identification feature, allowing users to diagnose issues through guided manual input.
- Integrated an **OpenAI/GPT**-powered chatbot to deliver personalized, real-time plant care assistance and guidance.
- Incorporated AI tools into both planning and implementation, streamlining development and contributing to the project's successful completion.

EDUCATION, LEADERSHIP & AFFILIATIONS

Bestlink College of the Philippines

BS, Information Technology

May 2026

Quezon City, NCR

CERTIFICATIONS

Certifications: Certified Java NC3 passer

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, PHP, Tailwind CSS

Tools & Platforms: MySQL, Git, GitHub, VS Code
